What are cookies?

Cookies are small pieces of data, stored in text files, that are stored on your computer or other device when websites are loaded in a browser. They are widely used to "remember" you and your preferences, either for a single visit (through a "session cookie") or for multiple repeat visits (using a "persistent cookie"). Cookies may be set by the site that you are visiting (known as "first party cookies"), or by third parties, such as those who serve content or provide advertising or analytics services on the website ("third party cookies").
